

LET'S SUPPORT THE CANTEEN

In Cambodia, child malnutrition remains a major issue. In 2025, 22% of children under the age of 5 suffer from stunted growth and 10% from severe undernutrition (source: UNICEF Cambodia).

In rural areas such as Kep, many families struggle to feed themselves and properly nourish their children. This compromises their health, education, and future. At a very young age, some are forced to leave school in order to support their family's needs.

In Kep, **our organization works to ensure that children have access to education** in the best possible conditions, and our community school canteen helps to meet this essential need. **Today, this project is at risk** due to a lack of funding. This fundraiser and your generosity can **save the KEPCHILDREN canteen.**

THE CANTEEN PROJECT

Since 2018, we have been welcoming students to our canteen :

5 meals per week for **kindergarten students**
2 meals per week for **primary school students**

This project is our biggest expense, but also the most **important** one!

That's why, for the coming year,
WE NEED YOUR SUPPORT
to ensure these meals continue!

Without funding, we will be forced to limit this project, which is so necessary! So together, let's give every child the opportunity to have access to healthy and complete meals.

CHANTI, CHEF

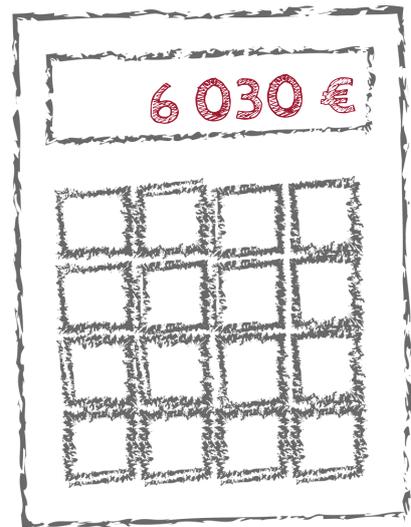

"For 8 years, I have been preparing balanced meals with heart, served in a warm space. I hope this continues."
